Enjoy the shade of the back wine garden all summer long- every Saturday in June, July & August

Yes, we have light, import & micro beer for the non-believers. Of course Non-alcoholic beverages too...

Can we buy wine to take home? Yes we even have weekly features.

Can we bring food in? No, not during Summer Saturday or when we have food available.

Why aren't you doing similar food to First Friday?

We are going with what we do best, which is to make great wines. While we will have good plates to share - we aren't and can never be a restaurant. We serve a small entree for First Friday once a month and we make everything off-site in a commercial kitchen and then bring it over; a logistic challenge that is ok once in a while. We hope to get clearance to have a food cart in the future- but so far we haven't been able to make it work.
