

Make your own bank...

Holiday inspired replica of the 1905 Pheasant Run Tasting Room

Assemble the tools you will need ~ Pheasant Run wine, corkscrew, scissors, glue *and* more wine.

Pre Test- Are you qualified to do this?...Are you :

A- Pinterest Expert, Architect, or Lego enthusiast B-someone with way too much time on their hands C- wine drinker with a good attitude.

If yes to any of the above please proceed. If not- have a glass of wine and try the test again.

Directions:

- 1 Cut out along solid lines and save directions
 - a. OR ignore directions and have some wine
- 2 Fold along dotted lines and glue bottom building tabs to side walls
HINT- Start with tab #1
HINT #2- If you glue the tabs to the inside (non printed part) it will look much better
- 3 Remember sharp scissors and glue can be both fun & dangerous when consuming wine
- 4 Enjoy a glass of Bank Robber Red

- 5 Do the top (roof) last.
Or if you're a man do it first and see if it works....
- 6 Now it's done and should look like our tasting room, the 1905 bank building.
Enjoy a glass of one of our Bank Vault Reserve Wines- you've earned it!

This replica is 1/100 scale and was engineered by one of our regular customers. Any coincidence that it looks exactly like our building is entirely on purpose. We hope you enjoy! **Cheers!**
